Subject: *hand-off summary 8/16

Hi Tim (EPA and gmail), below is the summary.

Not to jinx it, but there's nothing right now in mid-process I know of. There are two things below that didn't happen today (on their end, not ours).

Unless something comes along in the next few minutes, I'll shut down at 5 ET.

A PROCESS UPDATE:

Dan Abrams (an OPA Special Asst.) is now also in the EOC group and can therefore approve things or ask for changes to Web. Maybe everyone else knew; but I didn't know he was EOC, too, until he informed me today.

UPDATES TO GKM HOME:

- link to Watershed fact sheet as "History of the Gold King Mine".
- link to new Photos page.
- link to Frequent Questions page (at EPA we don't use "FAQs")
- added photos carousel to GKM home.

OTHER CHANGES:

new - posted photo page

<http://www2.epa.gov/goldkingmine/photos-related-gold-king-mine-response>

new - posted "Frequent Questions" page

<http://www2.epa.gov/goldkingmine/frequent-questions-related-king-gold-mine-response>

updated - posted revised GKM_R09 spreadsheet

<http://www2.epa.gov/goldkingmine/gold-king-mine-data-august-15-2015>

updated - added meta-data to PDF of Navajo Nation fact sheet

updated - added meta-data to PDF of Watershed fact sheet

DIDN'T HAPPEN TODAY:

No new data set. You might ask them if OK to add "AUGUST 16 / No new data available on August 16." on page <http://www2.epa.gov/goldkingmine/data-gold-king-mine-response>

(like how we did it for August 11.) If you don't get to this, I'll follow up tomorrow morning.

New data map still not live.

still at revision <https://wcms.epa.gov/node/106189/revisions/221415/view>

Thanks!
